

Purpose and Philosophy

Central Baptist Preschool & Kindergarten is dedicated to providing Christian growth and preparation for entry into public or private schools to children from 6 weeks to six years old.

Our Program is structured to provide growth in each child's development...

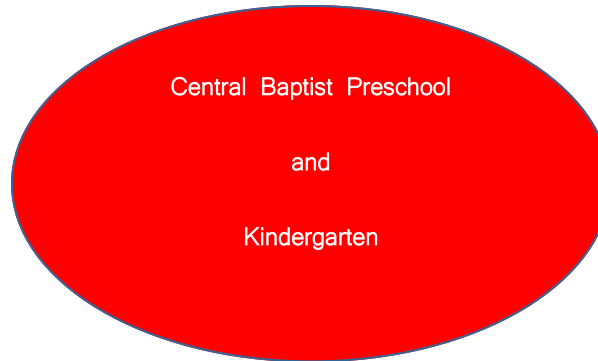

...Spiritually — The Program will help each child gain knowledge of God, and His love and care.

...Physically — Indoor and outdoor play (both structured and unstructured) will help each child gain physical strength and develop motor skills.

...Mentally — By giving opportunities for self-expression, investigation and participation in group activities, each child will increase in knowledge of the world and how to live in it. Our goal is to promote the processing of information and to motivate learning.

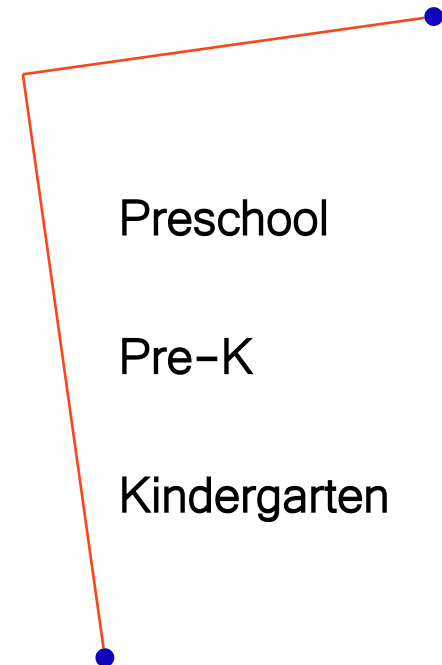

...Socially — Each child will learn to work and play with children in the same age group. Each will learn to respect the personal property rights of others, and to express kindness, courteousness, and consideration toward others.

...Emotionally — Caregivers will assist each child to mature in reaction to emotional situations and in the expression of emotional response.
